

Recycling in Marloth Park

In an effort to reduce the amount of waste and refuse a recycling station has been set up at Gate 2 Marloth Park. Our waste has a direct influence on our flora and fauna. We would like to request that people recycle the following materials:

Plastic: Cool drink bottles, containers, bags etc.

Glass: Bottles, jars, containers etc.

Paper/ Cardboard

Tins/Cans

Please can you separate and rinse where necessary your recyclable material and preferably place them into a green refuse bag. These bags can be recovered if you so choose. Regular refuse remains in a black garbage bag. Take this to the recycling station positioned at gate 2 Marloth Park. During working hours someone will be available to assist you with your refuse at this station.

Help us to Keep Marloth Park Clean.

Herwinning in Marloth Park.

'n Herwinningstasie is by hek nr. 2 tot stand gebring as deel van 'n poging om die hoeveelheid afval en vullis te verminder. Die rommel het 'n direkte invloed op ons fauna en flora.

Ons wil u graag versoek om die volgende herwinbare artikels uit te soek en afsonderlik vir verwydering vanaf die stasie beskikbaar te stel:

Plastiek: Koeldrankbottels, houers, sakke, ens.

Glas: Bottels, flesse, houers, ens.

Papier/kartonartikels

Blikkies

Die herwinbare artikels moet waar nodig gespoel en in groen sakke geplaas word. Die sakke kan weer teruggeneem word as u dit so verkies. Die gewone kombuisafval bly in die swart sakke.

Neem asseblief die sakke na hek nr. 2 waar die herwinningstasie is. Gedurende werksure sal daar iemand aan diens wees om hulp aan te bied.

Help ons om Marloth Park skoon te kry en so te hou..
